

Agusta AW139

HB-XOX

6 up to 8

2024

1000 km

SPECIFICATIONS

Crew
2 pilots

Cruise speed
280 km/h

Max take-off mass.
6 800 kg

The AW139 outperforms all other intermediate twin-engine helicopters in terms of capabilities, performance, and travel comfort.

Its powerful engines enable a cruising speed of 150 knots.

With a range of 540 nautical miles, the AW139 can cover a significantly greater distance than other similar aircraft.

It features the largest passenger cabin in its class, providing a spacious, comfortable, and quiet environment for passengers.
