The AW109 SP is a lightweight twin-engine helicopter that combines performance, comfort, and reliability, making it a preferred choice for passenger transport.

With a high cruising speed and excellent maneuverability, it is ideal for fast and efficient travel while ensuring a pleasant journey experience.

Its air-conditioned cabin is equipped with sound insulation, high-end seating, and a blend of modern design, advanced technology, and top-tier safety standards. It can accommodate several passengers in a quiet and comfortable environment.
